

Remarks

A replacement section for the section “BRIEF DESCRIPTION OF THE DRAWINGS” is provided with this Response. The only changes to the section are at the beginning of the description of Figure 41, where reference to Figures 41A-41JB is replaced with reference to 41-1 to 41-49B. This change was made to make the description of Figure 41 in the specification consistent with the numbering of Figure 41 in the drawings. As required by 37 C.F.R. § 1.121(b)(2)(ii), the changes are shown relative to the previous version of the section, which was last amended in an Amendment submitted April 23, 2008.

Comments on Identification of Specification/Drawing Inconsistencies

The Notice to File Corrected Application Papers (“Notice”) includes an Identification of Specification/Drawing Inconsistencies (“Identification”). The Identification notes two, reciprocal specification/drawing inconsistencies. First, the Identification notes that the specification includes a brief description of Figure 41A to 41JB, but that the drawings filed April 26, 2007 do not include a drawing with that description. The Identification indicates that applicant must respond either by supplying the omitted drawing or by amending the specification to remove all reference to the drawing. Second, the Identification notes that the drawings filed April 26, 2007 include Figure 41-1 to 41-49B, but that the specification’s brief description of the drawings does not describe a drawing with that designation. The Identification indicates that applicant must respond either by amending the specification to add a brief description of that drawing or by correcting the drawings to remove the drawing in question.

In response, Applicants note that the drawings filed April 26, 2007 are complete and correct and include Figure 41-1 to 41-49B. The specification includes a brief description that corresponds to Figure 41-1 to 41-49B in the drawings filed April 26, 2007, but the specification erroneously referred to Figure 41-1 to 41-49B by the designation “Figures 41A-41JB.” Because only this designation in the specification is erroneous, Applicants have amended the relevant brief description of the drawing to refer to Figure 41-1 to 41-49B. Applicants submit that because this amendment now makes the brief description of the drawings consistent with the drawings submitted April 26, 2007, both inconsistencies noted in the Identification have been resolved.
